

FCC Commissioners  
The Federal Communications Commission RE: Docket 04-435  
445 12th Street, SW  
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

Please, please have mercy ! Is there no end to the infringement on personal space. We are only human, how much punishment can we take. There is a part of us that must have some tranquility and peace.

Whether you enjoy it or not, flying is claustrophobic.

We live in a society that does not value leisure. The pace that most working people keep up is staggering. Unless there is an emergency why must one be on the phone? Before cell phones were their issues that could not be resolved?

Please, please...

Finally, there is no hard evidence that cell phone use doesn't interfere with navigational instruments. The introduction of cell phone use in the cabin will not only increase tension among passengers, it will compromise flight attendants' ability to maintain order in an emergency. Cell phone use could also enable terrorists to coordinate a plan of action more effectively.

Please leave the current rules in effect.

Sincerely,

Gabriel Falsetta
